Leadership

Communication & Collaboration

Planning

Digital

## \* LANGUAGES \*

English (Fluent)

Spanish (Partial Fluent)

Gujarati (Beginner)

## Profile

I was born and raised in Wellington, completing my studies at Scots College. While my home remains in Wellington, I am currently a first-year student at the University of Canterbury (UC) in Christchurch. I am excited about the opportunity to work with a dynamic team at your supermarket, as I'm keen to gain practical experience and save towards my continued studies.

My background in leadership, communication, and digital technology has prepared me well to thrive in a fast-paced retail environment. Having completed the International Baccalaureate (IB) programme, I value hard work and commitment and am eager to bring that dedication to my role with your team.

I have completed a range of school and personal projects that strengthened my programming, planning, and problem-solving skills. These experiences taught me how to manage time effectively, stay organised, and learn how to use new digital tools.

Additionally, my experience as a sports captain and tutor has strengthened my teamwork and communication skills. I enjoy connecting with people, learning from diverse perspectives, and supporting those around me, all of which I look forward to applying in a social and customer-focused environment.

## Work History

- Currently Working Part Time at Daily Stop Convenience Store
